

brucellosis. Animals removed from the herd or flock after that date will be considered exposed to the disease and eligible for indemnity; those removed before that date will not;

(c) Individual horses that have been found to be brucellosis reactor animals.

§ 51.24 Maximum per-head indemnity amounts.

Owners of the types of animals listed in § 51.22 of this subpart are eligible to receive Federal indemnity for their animals. All animals must be individually appraised to determine their fair market value. The indemnity amount will be the appraised value minus the salvage value of the animal, up to a maximum of \$20,000 per animal in the case of horses. An independent appraiser selected by the Administrator will conduct appraisals. APHIS will pay the cost of appraisals.

§ 51.25 Proof of destruction.

The Veterinarian in Charge will accept any of the following documents as proof of destruction:

- (a) A postmortem report;
- (b) A meat inspection certification of slaughter;
- (c) A written statement by a State representative, APHIS representative, or accredited veterinarian attesting to the destruction of the animals;
- (d) A written, sworn statement by the owner or caretaker of the animal attesting to the destruction of the animals;
- (e) A permit (VS Form 1-27) consigning the animal from a farm or livestock market directly to a slaughter establishment; or
- (f) In unique situations where none of the documents listed above are available, other similarly reliable forms of proof of destruction.

(Approved by the Office of Management and Budget under control number 0579-0185)

§ 51.26 Record of tests.

An APHIS representative, State representative, or accredited veterinarian will compile, on an APHIS-approved form, a complete test record for each animal. The claimant must provide any information necessary to complete the form. The test record must include the type of test and the test results for

each animal. It must also include the individual identification of each tested animal. Any unique, individually numbered identification is acceptable. The animal's owner and the appropriate State veterinarian's office will each receive a copy of the test record.

(Approved by the Office of Management and Budget under control number 0579-0185)

§ 51.27 Identification of goats, sheep, and horses to be destroyed.

The claimant must ensure that any goats, sheep, and horses for which indemnity is claimed are marked with unique, individually numbered identification showing they are to be destroyed. This must be done within 15 days after the animals are condemned. The Veterinarian in Charge may extend the time limit to 30 days when the Veterinarian in Charge receives a request for extension prior to the expiration date of the original 15-day period, and when the Veterinarian in Charge determines that the extension will not adversely affect the brucellosis eradication program. However, the Administrator may extend the time limit beyond 30 days when unusual or unforeseen circumstances occur that prevent or hinder the identification of the animal within 30 days, such as, but not limited to, floods, storms, or other Acts of God, which are beyond the control of the owner, or when identification is delayed due to requirements of another Federal agency.

§ 51.28 Moving goats, sheep, and horses to be destroyed.

Goats, sheep, and horses to be destroyed because of brucellosis must be accompanied by a permit and either:

- (a) Accompanied directly to slaughter by an APHIS or State representative; or
- (b) Moved in vehicles closed with official seals applied and removed by an APHIS representative, State representative, accredited veterinarian, or an individual authorized for this purpose by an APHIS representative. The official

9 CFR Ch. I (1–1–14 Edition)

seal numbers must be recorded on the accompanying permit.

(Approved by the Office of Management and Budget under control number 0579–0185)

§51.29 Destruction of animals; time limit.

(a) The claimant must ensure that goats, sheep, and horses infected with or exposed to *B. abortus* are either:

(1) Sold under permit to a recognized slaughtering establishment;

(2) Moved to an approved stockyard for sale to a recognized slaughtering establishment; or

(3) Destroyed and buried, incinerated, or rendered in accordance with applicable State law.

(b) The claimant must ensure that goats and sheep destroyed because of *B. melitensis* are destroyed and buried, incinerated, or rendered in accordance with applicable State law.

(c) Indemnity will be paid under this part only if the animals are destroyed within 15 days after the date they are marked with identification showing they are to be destroyed. However, the Veterinarian in Charge may extend the time limit to 30 days if:

(1) The animals' owner asks the Veterinarian in Charge for an extension before the initial 15-day period expires, or the animals were sold for slaughter before the original 15-day period expires; and

(2) The Veterinarian in Charge determines that extending the time limit will not adversely affect the Brucellosis Eradication Program.

(d) The Administrator may extend the time limit beyond 30 days when unusual and unforeseen circumstances occur that prevent or hinder the destruction of the animals within 30 days, such as, but not limited to, floods, storms, or other Acts of God, which are beyond the control of the owner, or when destruction is delayed due to requirements of another Federal agency.

§51.30 Claims for indemnity.

(a) Claims for indemnity for goats, sheep, and horses destroyed because of brucellosis must be made using an indemnity claim form furnished by

APHIS. On the form, the owner of the animals must certify whether the animals are subject to a mortgage. If the owner states there is a mortgage, the claim form must be signed by the owner and by each mortgage holder, consenting to the payment of any indemnity allowed to the owner. Payment will be made only if the claimant has submitted a complete indemnity claim form to the Veterinarian in Charge and the claim has been approved by the Veterinarian in Charge or by an APHIS representative designated by him or her. The Veterinarian in Charge or an APHIS representative designated by the Veterinarian in Charge will record on the APHIS indemnity claim form the amount of Federal and State indemnity payments that appear to be due to the owner of the animals. The owner of the animals will receive a copy of the completed APHIS indemnity claim form. The owner is responsible for paying all fees for holding the animals on the farm pending disposal and for all trucking fees.

(b) Claims for indemnity for registered sheep and registered goats must be accompanied by the animal's registration papers, issued in the name of the owner. If the registration papers are unavailable or if the animal is less than 1 year old and not registered at the time the claim for indemnity is submitted, the Veterinarian in Charge may grant a 60-day extension or the Administrator may grant an extension longer than 60 days for the presentation of registration papers. Any animal that is not registered but is eligible for registration at the time the claim is submitted will be considered unregistered unless the animal has been in the flock for less than 12 months.

§51.31 Disinfecting premises, conveyances, and materials.

All premises, including all structures, holding facilities, conveyances, and materials contaminated because they have been used by animals destroyed because of brucellosis, must be properly cleaned and disinfected in accordance with recommendations of the
